

TRENDZO

INVESTOR BRIEF · PRE-LAUNCH

TRY IT BEFORE YOU BUY IT.

Hyperlocal fashion from the stores around you. Try it on at your door, or on your screen, before a rupee leaves your account.

60 MINUTE DELIVERY · INDORE PILOT

[PRESENTER · EMAIL · DATE]

ONLINE FASHION STILL ASKS YOU TO BUY BLIND.

01 **Fit is a guess**

Nobody touches the fabric before they pay for it.

02 **Returns take days**

Money sits frozen on both sides of the transaction.

03 **Local stores are invisible**

Real stock on the shelf, no way to reach a digital shopper.

04 **Speed alone is not enough**

Quick commerce solved groceries. Fashion needs certainty too.

TWO WAYS TO TRY BEFORE YOU PAY.

Virtual Try-On

AI puts the garment on your own photo, before you order it.

Try-and-Buy

The agent waits at your door while you try. Keep what fits, hand back the rest.
Prepaid, no cash.

No warehouses. No owned inventory. Every order routes to the nearest in-stock, open partner store.

SHOPPING THAT FEELS LIKE SCROLLING.

01 Reels-first discovery

Swipe, tap, add to cart straight from the video.

02 HER / HIM

One toggle reshapes the catalog and the design language.

03 One cart, many stores

Split behind the scenes, shown as a single order.

60 min

DELIVERY PROMISE

SCREENS SHIPPED, BACKEND WIRED

Wallet • Loyalty • GST

FULL COMMERCE STACK, NOT MOCKED

THE SHOPPER'S APP.

Running on device today, not a mockup.
React Native, wired to the live catalog.

HOME · 60 MINUTE PROMISE

CATEGORIES · HER AND HIM

TRY AND BUY · EXPLORE

TURN ANY STORE INTO A QUICK-COMMERCE SELLER.

01 **One phone photo in, listing-ready images out**

AI removes the single biggest barrier to going digital: photography.

02 **A free POS if they need one**

An item sold at the counter disappears from the app the same second.

03 **Paid every two weeks, no minimum**

Fully itemized: gross, commission, TCS, refunds, holds, adjustments, net.

04 **We fund 100% of the discounts**

Commission is charged pre-discount. The retailer earns as if there were none.

THE RETAILER'S APP.

The in-store companion to the web dashboard. A shopkeeper photographs a garment and gets a listing.

CAPTURED ON DEVICE · SEEDED TEST STORE

STUDIO · ONLINE TOGGLE

AI CATALOG · PHOTO CAPTURE

STORE · EARNINGS AND PAYOUTS

A FLEET BUILT FOR THE DOOR MOMENT.

01

Employed, not gig

Auto-assigned by zone. No accept, no reject, no going offline.

02

A countdown at the door

Keep or return, item by item, with policy badges blocking invalid returns.

03

Photo evidence, every decision

Handover to the store is opened together, two parties, item by item.

3

AGENTS

3

ZONES

20

STORES

Launch scale, deliberately small. The driver app is a complete build on mock data, pending its dispatch wiring.

THE AGENT'S APP.

One tool replaces the WhatsApp group and the phone call. Queue, evidence, cash, all in one place.

CAPTURED ON DEVICE · FIGURES ARE SEEDED TEST DATA

SHIFT · EARNINGS AND CASH

QUEUE · LIVE ORDERS

COMMISSION LED. WE FUND THE GROWTH, NOT THE STORE.

20%

COMMISSION ON PRE-DISCOUNT ORDER VALUE

Net payout is order value, less commission, TCS, refunds and holds, then adjusted either way.

[INSERT · 3 TO 5 YEAR GMV, REVENUE AND MARGIN MODEL]

01 Fortnightly payouts, no minimum

The 14th and the last day of the month.

02 TCS is pass-through

Collected and remitted to the government. Never counted as revenue.

03 Levers already architected

Delivery and handling fees, promoted listings, a metered tier for AI catalog.

THE COMPLIANCE IS THE MOAT.

01 Invoices are never edited

Credit notes and supplementary invoices only, exactly as GST law requires.

02 KYC before a single rupee moves

GSTIN portal check, PAN validation, bank penny-drop, annual re-verification.

03 Nothing is silently overwritten

Every order, return, payout, stock move and price edit is a permanent event.

04 Humans decide, not algorithms

A documented strike ladder with an Ops call before any suspension.

PRE-LAUNCH, NOT PRE-PRODUCT.

CONSUMER APP

19

DRIVER APP

LIVE

Catalog, pricing and tax engine, checkout, phone OTP, retailer and admin tooling, payout and GST math, AI try-on.

NEXT

Payment gateway, driver-app dispatch wiring, a real content pipeline for the reels feed.

The unglamorous 80% of a marketplace, money, tax, disputes, inventory, multi-role auth, is built. What is left is connective tissue.

THREE TRENDS MEETING IN ONE PLACE.

01 **Speed is proven**

Quick commerce showed Indians will pay for it. Fashion is the category it has not solved.

02 **Discovery moved to video**

Short video is how young India browses now, not search and filters.

03 **The supply is already on the shelf**

Millions of single-store retailers hold real stock and have no storefront.

PARTNER STORES

3

DELIVERY ZONES

[INSERT · TAM / SAM / SOM]

NOT A DELIVERY APP. NOT A CATALOG.

01 Try-and-Buy is structural, not a feature

It lives in checkout, in dispatch and in the refund engine.

02 Two try-before-you-pay mechanics

Virtual for confidence while browsing, physical for the final call.

03 Asset light by design

Nearest in-stock open store wins the order, not the highest bidder.

04 India-first compliance depth

GST, TCS, KYC, credit notes and audit trail are not one quarter of work.

[INSERT · NAMED COMPETITOR COMPARISON]

ONE CITY. TWENTY STORES. PROVE IT, THEN REPEAT.

01 Two to three hours on site, per retailer

Inventory set up in person, owner and staff both trained.

02 Both blockers removed up front

The POS problem and the photography problem, solved on day one.

03 Discounts are ours, and geo-fenced

Never retailer funded, never spent outside the serviceable radius.

Try-and-Buy is the wedge

A dedicated, capped trial discount exists for one reason: to get a first-time shopper to experience the door-side try-on. That is the moment that converts the sceptics.

WHAT SHIPS NEXT.

BEFORE LAUNCH

- Payment gateway integrated
- Driver app wired to live dispatch
- Real content pipeline for reels
- Commission and payout terms signed off

AT LAUNCH

- Indore, 20 stores, 3 zones
- Admin-curated reels
- Simplified retailer delegation
- AI catalog free and unlimited

AFTER

- City two and beyond
- Metered tier for AI catalog
- Promoted listings and placement
- Retailer and community reels

[INSERT · CITY SEQUENCING AND TIMELINE]

WHAT THIS ROUND BUYS.

01 Round
[INSERT · PRE-SEED / SEED]

02 Amount
[INSERT · FIGURE]

03 Runway
[INSERT · MONTHS]

WHERE IT GOES

- Engineering: payments and dispatch to launch-ready
- Fleet and Indore operations
- Retailer acquisition and onboarding
- Working capital for the discount model

TRENDZO

FASHION YOU CAN TRUST BEFORE YOU PAY FOR IT.

Five working codebases. An India-compliant financial core. A pilot in Indore that is designed to be repeated, city by city.

THANK YOU
